WORKSHEET INFORMATION

LEVEL	A1
SKILL	Grammar
TOPIC	Countable / uncountable nouns with a / an, some, any
EXERCISES	6 (A–F)
EST. TIME	40–45 minutes
ANSWER KEY	Included above

ANSWER KEY

A. Read the Guide

No written answers — reference box. Key points to check students noticed: countable nouns have a plural form and take a / an; uncountable nouns have no plural and no a / an; use *some* in affirmatives, *any* in questions and negatives.

B. Classify the Nouns

Countable: apple, egg, orange, banana, tomato, sandwich

Uncountable: bread, water, cheese, rice, milk, sugar, coffee, tea

⚠ The two columns have fewer printed lines than words — tell students to write two words per line if needed. All 14 words are placed above.

C. Choose the Correct Option

- | | |
|---------|---------|
| 1. some | 5. any |
| 2. some | 6. any |
| 3. a | 7. a |
| 4. any | 8. some |

D. Complete the Sentences

- | | |
|---------|---------|
| 1. some | 5. any |
| 2. any | 6. a |
| 3. an | 7. some |
| 4. some | 8. any |

E. Look and Write (C / U + sentence)

- apple – C — e.g. *I eat an apple every day.*
- rice – U — e.g. *There is some rice in the bowl.*
- eggs – C — e.g. *We have six eggs.*
- cheese – U — e.g. *I'd like some cheese.*
- orange juice – U — e.g. *She drinks some orange juice.*
- cookies – C — e.g. *There aren't any cookies.*

Sentences vary; check the a/an/some/any choice matches the C/U label.

F. Correct the Mistakes

- I have some milk. (*milk is uncountable – no 'a'*)
- There is some cheese. (*uncountable – 'is', not 'are'*)
- She wants some water. (*uncountable – no 'an'*)
- We don't have any eggs. (*countable plural after 'any'*)
- He eats rice every day. (*uncountable – no 'a'; 'some rice' also accepted*)
- There is a lot of bread. (*'much bread' also accepted; not 'many'*)

Challenge

Students write 3 original sentences, each using one countable and one uncountable noun (e.g. *I put an egg and some milk in the bowl.*). Answers vary.

TEACHING SUPPORT

TEACHER TIP

The single test that unlocks this whole worksheet is on the Grammar Tip box: 'Can I count it?' Model it aloud — *one apple, two apples* (countable) vs. *one rice? two rices?* (no → uncountable). Have students apply that question before every answer in Exercises B, E and F.

COMMON STUDENT MISTAKES

- ✗ I have a milk.
- ✓ I have some milk.
- ✗ There are some cheese.
- ✓ There is some cheese.
- ✗ We don't have any egg.
- ✓ We don't have any eggs.
- ✗ There is many bread.
- ✓ There is a lot of bread.

EXTRA CLASS ACTIVITY

Countable or Uncountable Corners (8 min)

Label two corners of the room COUNTABLE and UNCOUNTABLE. Call out a food noun (banana, water, sandwich, sugar, egg, coffee...); students walk to the matching corner. Anyone in the wrong corner sits out one round. Speed up as it goes.

LEARNING FOCUS

Objective: Students will be able to classify common food nouns as countable or uncountable and choose correctly between a / an, some and any in affirmative, negative and question sentences.

Success Criteria: I can tell if a noun is countable or uncountable by asking 'Can I count it?'. I can use a / an with singular countable nouns, some in affirmatives, and any in questions and negatives.

Prior Knowledge: Basic food vocabulary and the singular/plural of regular nouns (apple / apples).

LESSON PLAN (40–45 MINUTES)

Level: A1

Skill: Grammar

Topic: Countable / uncountable nouns with a / an, some, any

Exercises: 6 (A–F)

Est. Time: 40–45 minutes

MATERIALS & PREP

- Printed worksheet copies (1 per student)
- Two signs: COUNTABLE / UNCOUNTABLE

- Pens or pencils

TIME	STAGE	PROCEDURE
5 min	Warm-Up	Hold up or draw an apple and a glass of water. Ask 'How many apples? How much water?' Elicit that we can count apples but not water. Write COUNTABLE / UNCOUNTABLE headings on the board.
9 min	Presentation (I Do)	Using the guide box, explain the two rules on the board: (1) countable nouns have a plural and take a / an (an apple, three apples); uncountable nouns have no plural and no a / an (water, not 'a water', not 'waters'). (2) Use some in affirmative sentences (I have some milk) and any in questions and negatives (Do you have any milk? I don't have any milk). Give the 'Can I count it?' test and try it with rice, egg, sugar, sandwich.
10 min	Guided Practice (We Do)	Do Exercise B as a class, saying 'Can I count it?' for each word before placing it. Then do items 1–3 of Exercise C together, naming affirmative / question / negative each time.
10 min	Independent Practice (You Do)	Students complete Exercises C, D and E alone, then compare D in pairs.
6 min	Assessment	Review Exercise F on the board; for each sentence ask 'What was the mistake?' (a + uncountable, is/are, singular after any...). Students then do the Exit Ticket individually.
5 min	Closure	Students complete the Challenge (3 sentences) and read one aloud; the class says whether each noun is countable or uncountable.

FOLLOW-UP / HOMEWORK IDEA

Homework: write a shopping list of 6 items – 3 countable (with a number: 'four apples') and 3 uncountable (with 'some': 'some rice').

ANTICIPATED PROBLEMS & SOLUTIONS

Problem: Students use a / an or a plural with uncountable nouns ('a water', 'two breads', 'many rice'), because in their first language these nouns may be countable.

Solution: Keep the 'Can I count it?' test on the board. When a student says 'a water', ask 'Two waters? Three waters?' – the oddness makes the rule stick.

Problem: Students choose 'some' in questions and negatives instead of 'any' ('Do you have some sugar?').

Solution: Before Exercises C and D, write the three sentence types on the board with colour: green = affirmative → some, red = question / negative → any.

FOR EXTRA SUPPORT

Give weaker students a short word list already sorted into countable / uncountable to use as a model during Exercises B and E.

FOR AN EXTRA CHALLENGE

Students write two short questions and answers using 'any' and 'some' about food in their own kitchen, then ask a partner.

EXTENSION & FAST-FINISHER IDEAS

- Write one more sentence using 'any' about something you don't have.

- Sort these into countable / uncountable: bottle, juice, chair, money, idea.

LANGUAGE FOCUS & BOARD NOTES

Grammar: countable vs. uncountable nouns; a / an + singular countable; some (affirmative); any (questions and negatives).

Skills: Reading (guide box), Writing (Ex. B–F + Challenge), Speaking (Warm-Up + Closure).

Board: an apple / three apples • some water (NOT a water) • Do you have any milk? • I don't have any eggs.

EXIT TICKET — QUICK CHECK

1. Countable or uncountable: *sugar?* → *uncountable*

2. Choose: I don't have (some / any) bread. → *any*

3. Fix: She wants an water. → *She wants some water.*

TEACHER REFLECTION:

☐ What worked well? ☐ What didn't work? ☐ Who needed extra support? ☐ What will I change next time?
