- ✓ Teacher Tip
- ✓ Extra Class Activity
- ✓ Extension & Exit Ticket

WORKSHEET INFORMATION

LEVEL	A1
SKILL	Reading
TOPIC	Countable / uncountable food nouns in a short text (A Picnic on Saturday)
EXERCISES	6 (A–F)
EST. TIME	40–45 minutes
ANSWER KEY	Included above

ANSWER KEY

A. Read the Text

Text: *A Picnic on Saturday*. No written answers – students read and notice the food words and how each is measured (three apples / some bread / a bottle of water).

B. Answer the Questions

1. They are at the supermarket.
2. It is Saturday.
3. They buy (three) apples and (a bunch of) bananas.
4. No, they don't. They have some rice at home.
5. She wants some tomatoes.

C. True or False

- | | |
|---------------------------|--------------------------------|
| 1. F (at the supermarket) | 5. T |
| 2. T | 6. T |
| 3. T | 7. F (her dad buys some bread) |
| 4. F (they don't buy any) | 8. T |

D. Find and Classify

Countable: apples, bananas, cookies, chips, tomatoes, park

Uncountable: bread, cheese, ham, juice, water, rice, milk

⚠ Fewer printed lines than words – students may write two per line. All 13 words placed.

E. Vocabulary in Context

- | | |
|---------------------------|------------|
| 1. banana | 4. tomato |
| 2. (orange) juice / water | 5. cookies |
| 3. cheese | 6. rice |

F. Your Turn

Personal answers (2–3 sentences). Sentence starters: *I would like...* / *I would take...* / *Because....* Check food nouns and a/an vs. some.

TEACHING SUPPORT

TEACHER TIP

The text quietly models the whole grammar point: countable things get a number ('three apples'), uncountable things get 'some' or a container ('some bread', 'a bottle of water'). Have students circle every food word and its measuring word before Exercise D – the classification then does itself.

COMMON STUDENT MISTAKES

- ✗ They are at the park.
- ✓ They are at the supermarket.
- ✗ Her dad buys three bread.
- ✓ Her dad buys some bread.
- ✗ They buy some rice.
- ✓ They don't buy any rice.
- ✗ Mia want some tomatoes.
- ✓ Mia wants some tomatoes.

EXTRA CLASS ACTIVITY

Pack the Picnic Basket (8 min)

In pairs, students list 8 things to take on a picnic. They must write countable items with a number ('four sandwiches') and uncountable items with 'some' ('some juice'). Pairs read their basket to the class, who check the measuring words.

LEARNING FOCUS

Objective: Students will be able to read a short narrative text, answer comprehension questions in full sentences, and sort the food nouns in the text into countable and uncountable.

Success Criteria: I can understand a short story about shopping for a picnic. I can answer questions with full sentences. I can decide if a food word is countable (a / an, plural) or uncountable (some, no plural).

Prior Knowledge: Food vocabulary; the idea of countable vs. uncountable nouns (from the Grammar worksheet); a / an and some.

LESSON PLAN (40–45 MINUTES)

Level: A1

Skill: Reading

Topic: Countable / uncountable food nouns in a short text (A Picnic on Saturday)

Exercises: 6 (A–F)

Est. Time: 40–45 minutes

MATERIALS & PREP

- Printed worksheet copies (1 per student)
- Pens

- A coloured pencil for circling food words

TIME	STAGE	PROCEDURE
5 min	Warm-Up	Ask: 'What food do you take on a picnic?' Collect 6–8 words on the board. For each, ask 'One or two? Or can't we count it?' and start two lists: COUNTABLE (apples, sandwiches) / UNCOUNTABLE (water, bread).
10 min	Presentation (I Do)	Read paragraph 2 aloud. Model the noticing: 'three apples' = a number → countable ; 'some bread' / 'some cheese' = no number, we use some → uncountable ; 'a bottle of water' = we can't count water, so we count the bottle. The measuring word (a number, 'some', 'a bottle of') tells you the Exercise D column. Then model Exercise B question 1: 'Where is the family?' → text says "at the supermarket" → They are at the supermarket.'
10 min	Guided Practice (We Do)	Exercise B questions 1–3 together, locating the sentence in the text first, then writing the full-sentence answer. Start Exercise D as a class: read the word box, circle the measuring word for the first three, place them in the columns.
10 min	Independent Practice (You Do)	Students complete Exercise C (true/false, underlining the proof sentence), finish Exercise D, and do Exercise E (vocabulary from clues) alone.
6 min	Assessment	Review Exercise D on the board: for each word a student says 'countable' or 'uncountable' and gives the reason (number / some / no plural). Students complete the Exit Ticket individually.
5 min	Closure	Students write their Exercise F picnic answer and read one sentence to a partner, who checks a/an vs. some.

FOLLOW-UP / HOMEWORK IDEA

Homework: write 6 sentences about food in your fridge – 3 countable with a number, 3 uncountable with 'some'.

ANTICIPATED PROBLEMS & SOLUTIONS

Problem: Students classify by the look of the object, not the grammar – e.g. 'chips' or 'cookies' as uncountable because they are 'lots of small pieces'.

Solution: The test is the language: 'one chip, two chips' works → countable; 'one rice, two rice?' → no → uncountable.

Problem: Students answer Exercise B with single words instead of full sentences.

Solution: Require every answer to start with 'They...' / 'It is...' / 'She...'.

FOR EXTRA SUPPORT

For Exercise D, give weaker students the word box pre-split into 'has a number' / 'has "some" as a bridge to the countable / uncountable labels.

FOR AN EXTRA CHALLENGE

Students write two more true/false statements about the text, one of which must be about a countable noun and one about an uncountable noun.

EXTENSION & FAST-FINISHER IDEAS

- Find and copy two 'a bottle of / a box of / a bag of' phrases from the text.

- Add two more foods to the correct column in Exercise D.

LANGUAGE FOCUS & BOARD NOTES

Grammar/Vocab: countable vs. uncountable food nouns; a / an, some, a bottle / box / bag of.

Board: three apples (countable) • some bread (uncountable) • a bottle of water

EXIT TICKET — QUICK CHECK

1. True or False: They buy some rice. → *False*
2. Countable or uncountable: *milk?* → *uncountable*
3. Answer: What day is it in the text? → *It is Saturday.*

TEACHER REFLECTION:

- ☐ What worked well? ☐ What didn't work? ☐ Who needed extra support? ☐ What will I change next time?
